

# Phase 3 - State Forums to Advance Health System Transformation

---

Adam Lustig & Laila Fox

**January 26, 2017**

# THE STATE FORUM TEAM

# OUR ROADMAP

---

1

## BACK- GROUND

Bridging Public  
Health and Health  
Care portfolio

2

## PHASE 1 & 2

Overview of Phase  
1 & 2 of the State  
Forums to  
Advance Health  
System  
Transformation

3

## CFP OVERVIEW

Eligibility, selection  
criteria, timeline,  
and perks

4

## Q & A

Discussion of  
funding  
opportunity

# Bridging Public Health and Health Care

## Why is Cross-Sector Collaboration Important?

Increased recognition that public health and health care sectors can improved population health through collaborative partnerships.

Public Health Institutes and Training Centers are uniquely situated to provide training, education, non-biased analysis and engagement/convening services to **bring together** multiple stakeholders in discussion and action.

# Selection of Current Projects

- State Forums (RWJF)
- Health Impact in Five (CDC OADP)
- Medicare Diabetes Prevention Program (CMMI)
- Understanding Emerging Challenges for Public Health Policy and Practice (CDC OADP)

A close-up photograph of a small, brown and white puppy drinking water from a person's cupped hand. A stream of water is being poured from a clear plastic bottle into the hand. The puppy's pink tongue is visible, touching the water. The background is a soft-focus green field.

# PHASE 1 & 2 AWARDEES

---

**CHW SUSTAINIBILITY & FINANCING:** Developed processes that effectively lead to sustainable financing and integration of the Community Health Worker workforce across the Virginia Health System.

**HEALTH VALUE DASHBOARD:** **Developed** a tool to track Ohio's progress towards achieving health value, to explore the relationship between population health outcomes and healthcare costs.

**ALL PAYERS CLAIMS DATABASE:** Engaged health systems stakeholders in developing and piloting a regional all payers claim database in Georgia, with an initial focus on heart disease.

**WI COMMUNITY HEALTH FUND:** **Built** local capacity through the development of the Wisconsin Community Health Fund to implement chronic disease prevention projects that bridge medicine and public health.

### **MCO Coverage of Community-Based Prevention Programs:**

Developed implementation steps to including community-based prevention/lifestyle programs into managed/integrated care systems.

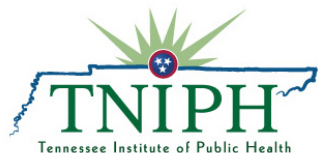

### **Integrating Behavioral Health & Primary Care:**

Identified opportunities for new partnerships among behavioral health and primary care providers and services at the state, regional and local levels.

### **CHW Sustainability & Financing:**

Addressed how to best advance CHWs, institutionalize their roles across public health and healthcare, and explore sustainable financing options.

### **Cross Sector Collaboration Using Community Mobilization Strategies Toward an Accountable Care Community:**

Brought organizations together supported by the regional healthcare systems and modeled after the ACC.

### **Hawai'i Community Health Ambassadors Program:**

Strengthened the capacity of Hawai'i's diverse, rural, and island-based communities to create their own healthy future.

### **Addressing SC's Workforce Needs:**

Identified collaboration and policy opportunities to enhance the future healthcare workforce in South Carolina.

# CFP Overview

---

# CFP TIMELINE

**January 26, 2017**

Informational Webinar

**Late-February, 2017**

State Forum Phase 3 sites  
selected and informed

**January 12, 2017**

CFP released

**February 13, 2017**

Proposals are due by 5pm PT

# State Forum Goals

---

Identify, examine & lift up effective HST strategies that bridge public health & health care

Strengthen technical assistance capacities of PHIs to serve as catalysts for HST & support a Culture of Health

Enhance convening and capacity building competencies of PHIs to increase 'bridging' throughout states

# Forum Goals & Activities (New Awardees)

---

- Development of a consensus definition of population health through stakeholder engagement. The definition work will help the advisory group/stakeholders of the forum create a common language and support the vision for the outcomes of the state forum. The definition should be one piece to help inform the activities of the forum.
- Completion of a roadmap (E.g. work plan for strategy implementation) which includes a scan of current activity in the state, outlines the areas of opportunity and collaboration, the possible strategies to support those areas of opportunity, mitigation strategies for potential challenges, and how the state forum will advance the conversation and lead to action
- Implementation of at least one strategy that supports bridging public health and healthcare efforts aligned with the forum focus and roadmap

## **State Forum Deliverables (New Awardees)**

- Completed Roadmap
- Consensus definition of population health
- A set of practical strategies for bridging public health & health care
- Completion of a final report highlighting forum process, outcomes & recommendations
- Implementation of at least one strategy in each state to support bridging public health & health care
- Participation and contribution to the NNPHI learning community on bridging
- Participation and contribution in NNPHI communications activities

# Forum Goals & Activities (Past Awardees)

---

- Development of a comprehensive implementation plan for at least 1 strategy identified in your State Forum Roadmap (developed as part of your previously funded work). It must be clear in your application that implementation for the chosen strategy is already underway and the implementation plan must reflect the next steps of your chosen strategy.
- Development of metrics to measure the impact of your work. Measures may include economic, clinical, or community outcomes data.
- Demonstration of efforts to sustain funding for your implementation strategy beyond this funding opportunity.

## State Forum Deliverables (Past Awardees)

- Develop a comprehensive implementation plan for at least 1 strategy identified in your State Forum Roadmap (developed as part of your previously funded work).
- Develop metrics to measure the impact of your work. Measures may include economic, clinical, or community outcomes data.
- Demonstrate efforts to sustain funding for your implementation strategy beyond this funding opportunity.
- Completion of a final report highlighting implementation efforts, outcomes and strategies to sustain funding to continue this work beyond the funding period.
- Participation in the NNPHI learning community on bridging, which may include participation in a workshop at the 2017 and 2018 NNPHI Annual Conference
- Participation in NNPHI communications activities which may include webinars, one pagers and a press release.
