

What Works for Rural: From Research to Reality

**CDC Roybal Campus
Atlanta, Georgia**

December 12th & 13th

Meeting Purpose: The purpose of the meeting is to:

- identify together what tools, resources, and additional evidence can support states working to address leading causes of death in rural communities;
- build connections and relationships with one another; and
- share resources and learn from one another about what is and is not working in the rural context.
