NNPHI AND MEMBER PUBLIC HEALTH INSTITUTE SESSIONS AT THE APHA VIRTUAL 2020 ANNUAL MEETING AND EXPO

October 24 – 28, 2020

Join the National Network of Public Health Institutes and its Member Institutes at this year's APHA Annual Meeting and Expo

This year marks an important milestone for the National Network of Public Health Institutes (NNPHI): the 20th anniversary of serving as the official organization that represents a growing network of more than 40 member public health institutes, affiliate members, and emerging institutes in over 30 states spanning all ten Department of Health and Human Services regions.

We join APHA and the growing list of states by designing our equity footprint and implementing an equity audit to establish indicators that will further diversify our team and organizational capacity to eliminate all inequities in health outcomes.

The following summary highlights oral presentations, poster sessions, and other sessions of the [National Network of Public Health Institutes \(NNPHI\)](#) and its member institutes at the American Public Health Association (APHA) Virtual 2020 Annual Meeting and Expo. This reference list is intended as a resource for those attending APHA as well as NNPHI members and partner organizations interested in knowing more about the collective work of our growing NNPHI network. Each year, NNPHI staff compiles this listing through a query to its members and searching the [online APHA conference program](#). For full session abstracts and speaker information please click on the hyperlinked session titles below.
