

NNPHI Community Based Organization RFP Frequently Asked Questions

- **How do I apply?**
 - You can submit your application [HERE](#)
- **What is considered a community-based organization (CBO) and who is eligible to apply?**
 - Must be 501c3 organizations in the United States or non-profit institutions of higher education, which may include community-based organizations, faith-based organizations, public health institutes, colleges or universities, regional coalitions, Tribal affiliated organizations, or local health care delivery organizations, or care associations;
 - If chosen, organizations must be active and registered with SAM.gov;
 - Have established relationships in communities who experience structural racism, rural disinvestment or other impacts of injustices resulting in adverse health outcomes;
 - Must have an identified best, promising, emerging, and/or novel practice to share within a priority population;
 - Have the capacity to manage federal subcontract and reporting requirements;
 - Have capacity to manage data collection and program evaluation (with support from the funder or a contracted entity);
 - Although it is appreciated, applicants do **not** have to have worked with a health department, public health institute, or OT21-2103 grantee previously;
 - All organizations must describe a health equity best practice that both aligns with the designations
- **Does my organization have to have worked with a health department previously?**
 - No. Although it is appreciated, applicants do **not** have to have worked with a health department, public health institute, or OT21-2103 grantee previously.
 -
- **How do I register with SAM.gov?**
 - You can find the information here: <https://sam.gov/content/entity-registration>
- **How much money is the grant?**
 - \$60,000 and the project period is September 1, 2023-May 31, 2024.
- **Who can I contact with questions?**
 - Please send questions to rblock@nnphi.org
